

VIX-75 STRATEGY FOR BEGINNERS

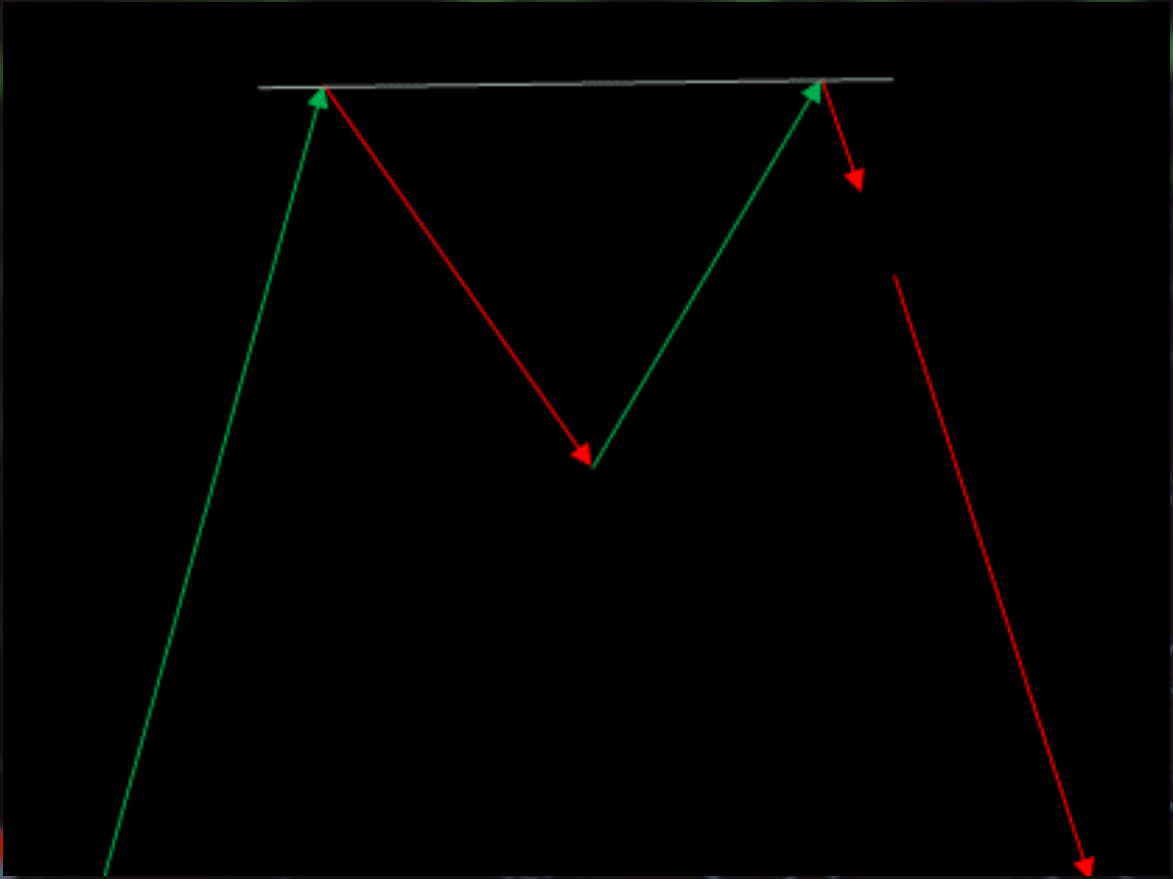

FOREX MADE SIMPLE

HOW VIX-75 MOVES

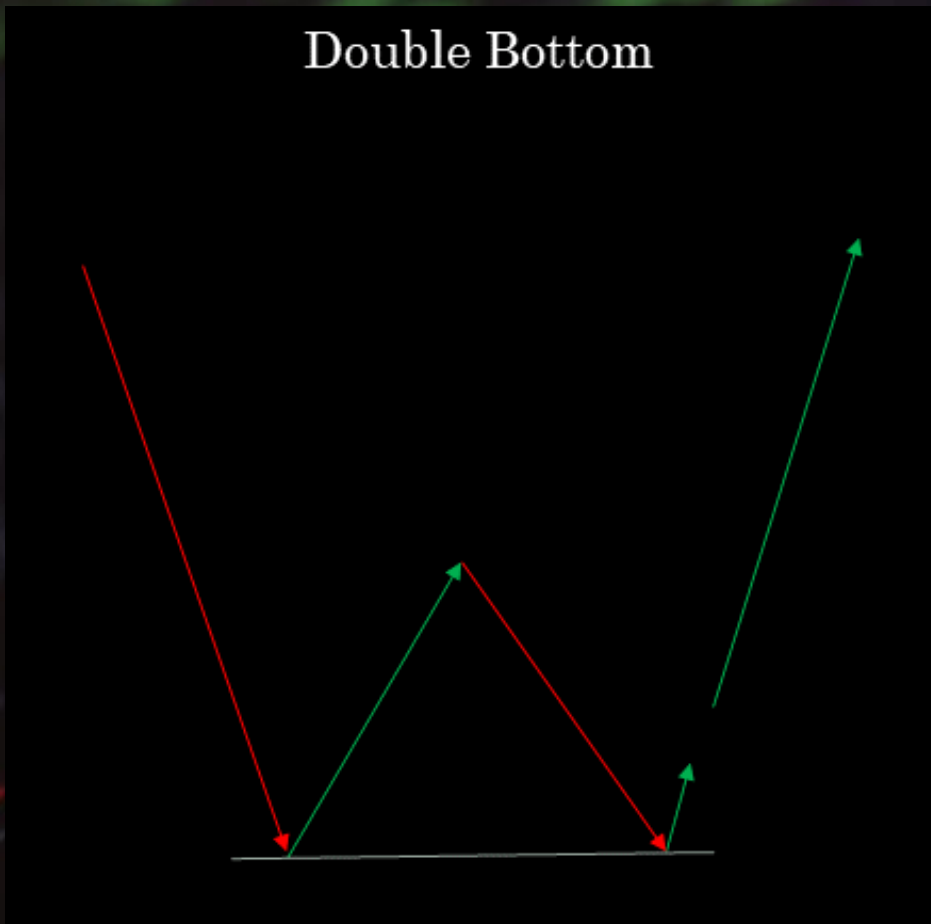

VIX-75 makes reversal patterns before reversing from up trend to down trend and vice versa, this allows us as traders to know where and when VIX-75 will switch trends.

DOUBLE TOP

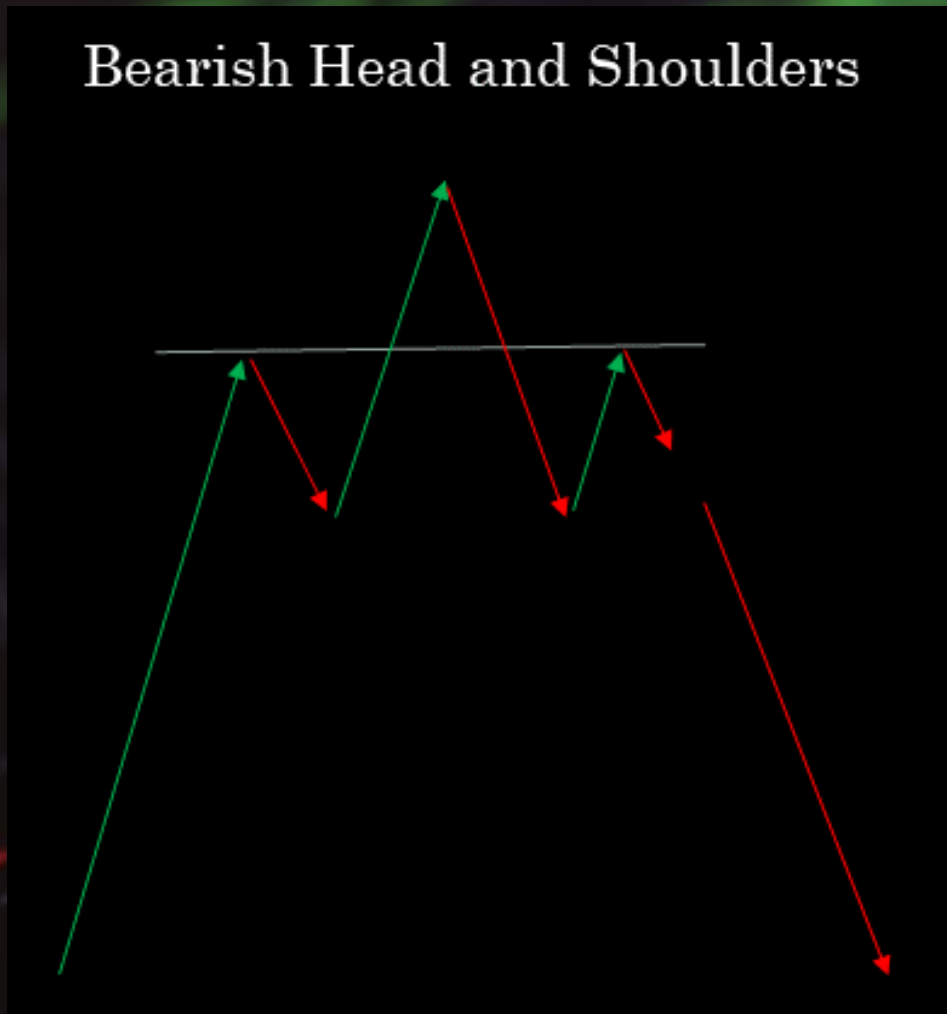

Double top signals a reversal from uptrend to down trend. After the second top is spotted, wait for the market to make a small turn to the downside then place a SELL entry. This is usually the second RED candle.

DOUBLE BOTTOM

Double bottom signals a reversal from down trend to uptrend. After the second bottom is spotted, wait for the market to make a small turn to the upside then place a BUY entry. This is usually the second GREEN candle.

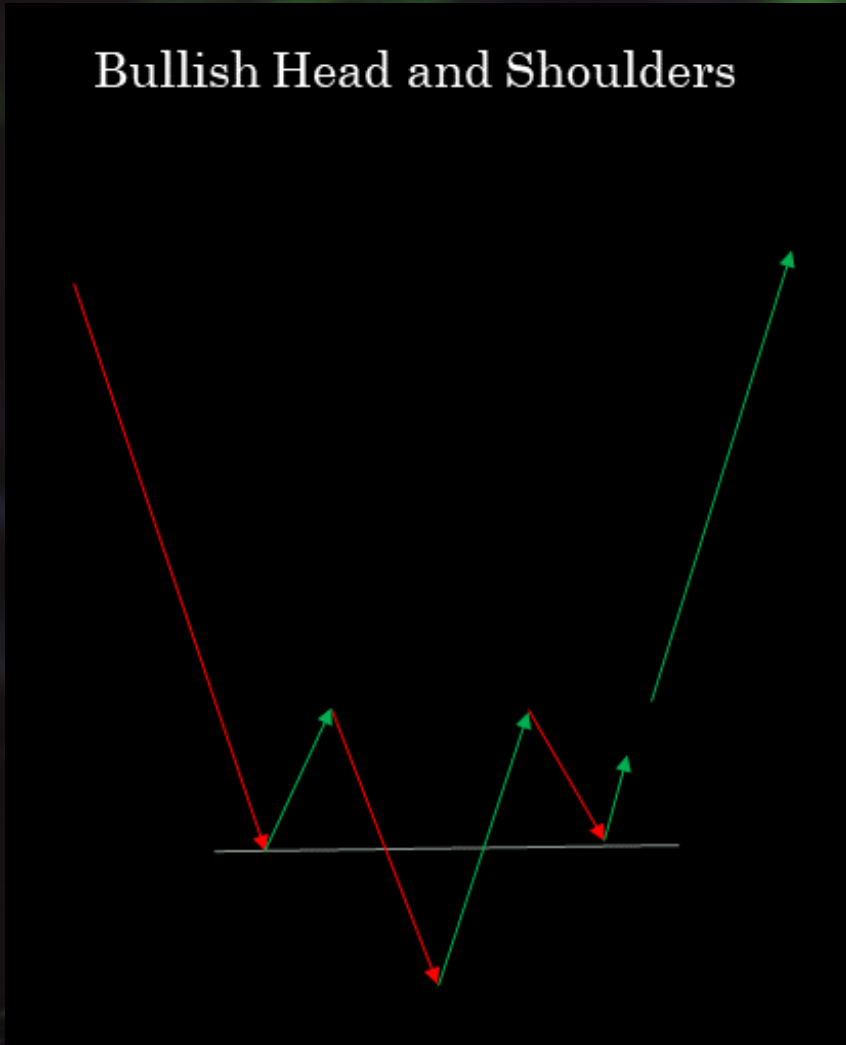

Bearish Head and Shoulders

Bearish Head and Shoulders signals a reversal from uptrend to down trend. After the right shoulder is spotted, wait for the market to make a small turn to the downside then place a SELL entry. This is usually the second RED candle.

Bullish Head and Shoulders

Bullish Head and Shoulders

Bullish Head and Shoulders signals a reversal from downtrend to uptrend. After the right shoulder is spotted, wait for the market to make a small turn to the upside then place a BUY entry. This is usually the second GREEN candle.

The 3 Rules

1. Put Your **Emotions** aside!!
2. **NEVER** open a trade without a **Stop Loss**.
3. Move your **Stop Loss** to Break Even after you're in **profit**.
